

U. S. ARMY MEDICAL LIBRARY

Current List of Japanese Medical Journals

This is a list of Japanese medical journals now (1949) being published in Japan, according to information supplied by Dr. Tomio Ogata of Tokyo University, supplemented by the serial records of the Army Medical Library. The transliterated Japanese titles are followed by descriptive titles in English intended as guides to the contents of the journals rather than as precise translations. Publishers' addresses are supplied as fully as possible. It is recognized that titles, translations, and addresses doubtless contain errors, but it is felt that present publication of this imperfect list is preferable to eventual publication of a carefully edited but out-of-date list.
